

A Tradition of Excellence

From its rural, southeast Kansas roots, **A-Lert Construction Services** has built upon a simple idea — that a labor force of skilled craftsmen, capable of being dispatched on short notice to a wide range of industrial construction or repair projects, would be of great benefit to customers.

Guided by the values of its founder, A-Lert Construction Services has grown from a small, regional contractor to a diversified, multi-craft, national construction company with offices in Georgia, Kansas, Illinois, Iowa and North Carolina.

The A-Lert Core Values...

- Absolute Integrity
- Unrelenting Customer Service
- Employees—Our Greatest Asset
- Uncompromising Jobsite Safety
- Partnerships—Together We Grow

A-Lert regularly performs all types of construction, maintenance and repair projects in such diverse industries as:

- Grain processing
- Cement manufacturing
- Chemical processing
- Energy generation
- Food processing
- Paper and Pulp

On Schedule. On Budget. Performed Safely. If these are the goals of your next construction project, give A-Lert a call. We stand ready to serve your needs.
